GET READY FOR THE ASIAN CENTURY

Boğaziçi University MAAS Program

The rise of Asia is defining the global processes in all respects, which makes it absolutely necessary for individuals from any walk of life to have a better understanding of the dynamics behind the ascent of the Asian continent. The Master of Arts Program in Asian Studies (MAAS) aims to provide students with a solid foundation in this field and prepare them for the challenges of the 21st century. Combining a multi-disciplinary approach incorporating political, economic, social, and cultural studies of Asia with language courses, the program prepares students for a wide range of career options in today's and tomorrow's world where Asia is to play an increasingly assertive role.

MAAS is offered by Boğaziçi University Institute for Graduate Studies in Social Sciences, supported by the Asian Studies Center and the Department of History. Students can choose the thesis track or non-thesis track for their degree.
